INCONCLUSIVE TB REACTORS

Have you had an Inconclusive Reactor (IR) on your holding ?
Which has subsequently been resolved (ie passed it's TB test)

Please check your 'IR's' before selling them

NB: They can only go direct to a slaughter house or AFU under licence.

South East Marts are happy to arrange this for you.

The only other option is to test the animal again, at your cost using an interferon-gamma blood test, then if this is negative, restrictions will be lifted.
