HAILSHAM MARKET - PRIMESTOCK DAY

SHEEP – 798

A short entry. Demand exceeded supply by quite a way which resulted in the best trade in the South East across the board, and that is a fact! Haemonchus worms present a serious problem for sheep and are on the increase due to the wet summer.

Ask your veterinarian for advice today.

The “Messiah” of the Labour party, Tony Blair, has advised post-election that a high debt, high tax regime will produce a very poor outcome for the present government. Government borrowing is 100% of GDP!!! No normal business could succeed in this fashion!!

Competitive Direct Drilling Service

Using our proven Simtech Aitchison direct drill we seed into all surfaces - grasses, clovers, brassicas, cereals, pulses, maize and all mixtures. The unique T-slot boot allows a perfect environment for the seeds to germinate, along its 3m sowing width with 20 rows (15cm). This method saves time and money compared with more traditional re-seeding methods, but is also capable of stitching and rejuvenating existing crops.
