Competitive Direct Drilling Service

Using our new Fentech's latest Agri Pneumatic 3m Drill (150mm spacing over 20 tines) we seed into all surfaces – grasses, clovers, brassicas, cereals, pulses, maize and all mixtures. The unique T-slot boot allows a perfect environment for the seeds to germinate, along its 3m sowing width with 20 rows (15cm).

This method saves time and money compared with more traditional re-seeding methods, but is also capable of stitching and rejuvenating existing crops.
